# Private Orthodontics

Here at Resolution Specialist Treatment Centre we are passionate about orthodontics. We have dedicated over a decade of our time striving to be the best in the field of smile management.

We keep up to date with the latest changes and developments in orthodontic technologies. We pride ourselves in delivering excellent patient care in a state of the art setting and a highly qualified team of staff.

We offer:

- Adult orthodontics
- Teen orthodontics
- Aesthetic braces
- Invisible braces
- Saturday appointments
- Same day & pre-bookable emergency appointments
- Finance options
- Scale and polish included at the end of treatment
- Free sundry pack at the start of treatment

At an initial consultation, all the treatment options and procedures will be explained fully to you and a tailored treatment plan will be given for you to consider. In addition, a dedicated Treatment Coordinator will be available to guide you throughout the process.

**Tel: 01935 434440**

# Dental Implants

Dental implants are the perfect solution to replace missing teeth or stabilise loose dentures. Improving your smile changes more than just how you look; it can give you a whole new approach to life.

A dental implant mimics nature: it is designed to be firmly anchored in the jaw and to hold the tooth in place. The implant is a small part made of titanium, titanium alloy or ceramics – materials which are generally well-tolerated by the human body. Also, titanium has been shown to bond well with the human bone.

Only top quality components and laboratory services are used throughout the course of your implant treatment and carried out by a highly experienced and respected Implantologist.

[1] Natural tooth, [2] Dental implant, [3] Tooth crown

At an initial consultation, all the treatment options and procedures will be explained fully to you and a tailored treatment plan will be given for you to consider. In addition, a dedicated Treatment Coordinator will be available to guide you throughout the process.

# Chiropractic Therapy

Our team of Chiropractic professionals at Resolution Specialist Treatment Centre have completed comprise of regulated healthcare professionals who specialise in problems of the body's joints, ligaments, muscles and nerves. They concentrate on dysfunction in the spine which contains the nerves that control the body and conduct pain. They do this by treating the underlying cause of complaints and give advice to prevent problems reoccurring. The techniques they employ, along with postural & exercise advice, help to improve mobility, reduce muscle tension and relieve pain. All patients are treated as individuals and a bespoke course of treatment is created for each person.

Common ailments include:

- Migraine
- Headache and dizziness
- Many types of back & neck pain
- A variety of arm and leg problems
- Sciatica

We treat patients from all age groups from children to elderly patients and athletes.

# Hair Loss Clinic

It is sometimes said that 'hair is the barometer of health', and hair can certainly be a reflection of an individual's lifestyle, indicating the stresses, tensions and variations in the body's systems.

The Hair Loss Clinic is run by Julie Beale, a fully qualified trichologist and wig specialist and hairdresser with over 22 years' experience, and she offers a unique, personal and private one to one service with..

- Understanding of chemotherapy and alopecia
- Emotional support, help and advice
- Huge range of wigs to choose from
- Personal fitting and styling service
- Masking solutions, accessories and aftercare
- Diagnosis and treatment of hair and scalp conditions

Due to the sensitive nature of this service Julie prefers to speak with her patients directly starting with a free no obligation telephone consultation, she will then arrange to see you at a convenient time for you both at Resolution. The benefit of having this service at Resolution is that its discreet and other patients in the practice at the same time may not know the reason for the visit.

If you think we might be able to help you and wish to find out more, please email [julie.beale@resolutionsmile.com](mailto:julie.beale@resolutionsmile.com) to arrange a confidential, no obligation consultation or ask at Reception.

# Smile Management

## Home Whitening Trays:

The home whitening system provides a fantastic result over a period of time. Our consultations for whitening treatment are free. At your appointment we will take impressions of your teeth. From these impressions we will make whitening trays which will house the bleaching gel. Patients are advised to wear the bleaching trays for periods of time (commonly through the night) over the course of approximately two weeks until the desired shade is reached.

To take advantage of our competitive prices and our outstanding customer care call us, or speak to Reception, to book your initial consultation.

## Hygienist:

Regular professional cleaning, combined with looking after your teeth and gums well at home, will help keep your mouth healthy. A clean and healthy mouth will improve your appearance, help you to keep your teeth and give you fresh breath. Resolutions are happy to offer scale and polish treatments to both adults and children whether it be for a regular visit to maintain the best oral health, or for that special occasion when you want a winning smile.

**Tel: 01935 434440**

# Oral health

## Periodontics:

We are very enthusiastic to encourage people with gum disease to recognize the symptoms early and arrange some treatment while it is still simple to fully correct the problem. If you have any of the following symptoms then you could have gum disease and a consultation to check this out would be a good idea:

- Bleeding from gums, especially while brushing your teeth.
- Gums that look puffy and red or ulcerated in appearance
- Bad breath or a metallic taste in your mouth
- Deposits of tartar (calculus) near to the margin of the gum
- Teeth that feel more mobile than they used to
- Teeth that have drifted from their original position
- Pain or swelling associated with the gums

## Endodontics:

Endodontics is more commonly known as Root Canal Treatment and is usually carried out when the pulp (soft tissue inside a tooth) is either inflamed or dead.

The root canal system, especially in molars, is often complex and many general dentists prefer to refer these cases to a specialist who has the training, equipment and experience to deal with them well. The treatment can be time consuming due to it's complex nature.

A consultation is required to assess what treatment is needed for each individual patient, and a bespoke treatment cost will be presented after the initial appointment.

**Tel: 01935 434440**

**[www.resolutionsmile.com](http://www.resolutionsmile.com)**

# Headache Clinic

Most of us get headaches now and again; however, for some people, these can be much more serious and persistent, making getting through the day or night truly difficult, sometimes for years at a time. Such headaches may not have responded in the past to even the best of professional help.

The Headache Clinic involves several clinicians, all highly experienced in their different fields, working together to develop a different, more comprehensive way of managing head and neck pain. By pooling their professional expertise and experience, they have developed a new, integrated approach, recognizing that, by working together, they could help patients who could not be 'cured' by any one clinician working in isolation.

The team is led by Dr Mark Brickley (Orthodontist), Judith O'Hagan (Psychotherapist) and Martin Young (Chiropractor).

We may be able to help with:

- Tension headaches
- Stress headaches
- Jaw joint pain
- Migraine
- Neck pain syndromes
- Cluster headaches

More information is available at [www.theheadacheclinic.com](http://www.theheadacheclinic.com)

## Our policies:

In the unlikely event that you wish to make a complaint for any reason, in the first instance, please contact the practice manager at the address overleaf. If you feel you would like further assistance with your complaint you can contact P.A.L.S on 0800 0851067 or their office based at Yeovil Hospital 01935 384706.

All members of our team have the right to carry out their work without the threat of violence. Like the rest of the NHS, we operate a 'zero tolerance' policy and will refuse service to any patient who is physically or verbally abusive or threatening to any team member or other patients.

We work in close partnership with the local Trust, their address is:

NHS England (BNSSSG Area Team)  
4th Floor, South Plaza,  
Bristol  
Tel: 0300 3112233

As a patient you have every right to view any information about you that we hold on our premises. Our staff have access to your information and are all trained in data confidentiality, to CQC requirements.  
CQC Tel number: 0300 616161

As a patient you have the responsibility to keep your appointments and inform us of any changes or contact details.

**Tel: 01935 434440**
